Redefining what's possible.

The Rebellion enables leaders and teams to unlock their full potential. Everything we do, either **immersive experiences**, **on-site activations**, or **growth coaching**, is fully designed to challenge your limits and grow what you believe is possible.

William Trubridge

The Rebellion & Vertical Blue Co-Founder
18x World Record Free Diver

"Our potential is almost always far beyond what we believe, and unleashing it is a magnum opus, and one of life's greatest rewards. My passion is now to share with other individuals and entities the tools that have served me so well in this process."

Jordi Mullor

The Rebellion CEO & Co-Founder

"To grow you need to do more uncomfortable things. Period. There's no shortcut, tradeoff, or cheat sheet. Either you are or you are not expanding your comfort zone. Every action, every decision, is either within your comfort zone or outside of such. Now, to expand your potential you need to periodically try what you believe to be impossible. It is the only way to realize you are truly capable of more."

Siri Ostvold

The Rebellion Co-Founder
Norwegian Free Diving Record Holder

"To be able to change business and systems, I believe we need to start with ourselves. I see the need of connecting people to their own body, to their surroundings, to their community and with nature to be able to - not only perform in life and business - but to create a new restorative and regenerative world."

Walid Boudhief

The Rebellion Ambassador
World Record Holder

"When I hold my breath the surface of the Sea, a whole new universe opens for me. A world of endless possibilities, where my own limitations vanish, I become one with the liquid element and I merge into it. Whatever the goal is, my body adapts to it and draws on the resources I need in order to accomplish the task."
